## Career Objective

I am an ambitious, hardworking and driven web developer with a passion for problem-solving and excellent interpersonal skills. I am looking for the right opportunity to join a team and work in an environment that will allow me both to exercise my current skills and continue to progress.

## Web Development Projects

- Built an ecommerce website using **sanity.io**, **stripe payment management** and **auth0 authentication**. The site was built from scratch with **Next.js** and **Tailwind**, with **Framer Motion** animations also included.
- Created a news feed website that consumes three separate **APIs** to give the user information about what is happening in the world of space exploration and science. The site also incorporates 3D elements rendered with **react three fiber**, a React render of **Three.js**.

## Employment History

### Display Coordinator - Head of Workshop
